

Here's a math trick that really works.

It will take you approximately ten seconds and, amazingly, it will reveal your all-time favorite movie. I did it in my head, then on paper, and finally on a calculator just to confirm my mathematical calculations. Each time I got the same answer, and sure enough, it is my very favourite movie...EVER! DO NOT cheat. DO YOUR math, THEN compare the results on the list of movies at the bottom. You will be AMAZED at how scary true and accurate this test is:

1. Pick a number from 1-9.
2. Multiply that number by 3
3. Add 3.
4. Multiply by 3 again.
5. Your total will be a two digit number. Add the first and second digits together to find your favourite movie (of all time) in the list of 20 Movies, below.

Movie List:

1. Gone With the Wind
2. ET.
3. Blazing Saddles
4. Star Wars
