Drop by to explore Memory Hub resources

Drop in anytime between 9am - 4pm, Monday - Thursday. We are located at 1021 Columbia St. Seattle.

Limited valet parking provided around the corner at Murano Senior Living, with validation at our front desk.

- Our care consultant from the Alzheimer's Association acts as "Memory Navigator" to provide free 30-minute appointments to help you get connected with helpful memory loss resources. [Learn more.](#)
- Fall Art Reception: 2-3:30 p.m. Wednesday, September 25. Celebrate fall artists at the Memory Hub! Honor the artists whose work is featured in our latest Frame of Mind exhibit, and meet our

new (first ever!) Artist in Residence. Light refreshments included. A free event, [sign up here](#).

- Our library/resource room provides a wide array of books about living well with memory loss and caregiving. [View our titles](#).
- Maude's Garden, Washington's first public memory garden, offers a botanical oasis at the Memory Hub and hosts garden programs and art exhibits. [Learn more](#).

Memory Hub Stories

Team Spotlight: Meet the First Artist in Residence at the Memory Hub Julia Becke, MD

Artist in Residence

Julia Becke, MD

The Memory Hub welcomes Julia Becke, MD, as our first Artist in Residence. Dr. Becke is a board-certified internist at the UW Roosevelt General Internal Medicine Center and came to her medical training with a background in dance and dance education. Working at the crossroads of medicine and art, she brings a passion for offering dance-making workshops that are optimized for people living with memory loss or

dementia.

“I am honored to be the first Artist in Residence,” says Dr. Becke. “It is a very special opportunity for me to work with people living with memory loss and use the arts and dance as a way of enhancing joy and creativity and improving life in the setting of a condition that can be stigmatizing and isolating. Finding ways to connect with our community feels important.”

In her 13 years of clinical work and previous work managing long-term care patients at the former Keiro Northwest skilled nursing facility on Cherry Hill, Dr. Becke has seen the benefits of ready access to dementia-specific programming and the negative effects of the absence of stimulation and connection to others.

Over the next few months, Dr. Becke will hold weekly dance-making sessions at the Memory Hub, specifically in the Elderwise Adult Day program and the Alzheimer's Café program. In the community, Dr. Becke will also work with residents in Terraces at Skyline. This project will culminate in a final performance at the Frye Art Museum in December, on which participants will act as co-creators of the dance movements.

A Magical 'Garden of Inspiration' Art Show!

On August 23rd we enjoyed an open-air exhibit of nature-inspired art that was a collaboration between the Memory Hub, UW Memory and Brain Wellness Center, and Elderwise, with support from Era Living Memory Care. The colorful, eclectic art show celebrated nature-inspired art created by the Memory Hub greater community and Elderwise participants, friends and family. The idea was originally inspired by how often Maude's Garden becomes the inspiration for artwork - and it's now an annual event. The show included over 100 original works of art. Many of the artists attended and shared their enthusiasm with others.

"A special treat for us was a visit from participant artists from our

Northaven outreach program," says Janet Salsbury of Elderwise, who helped organize the exhibit. "None had visited the Hub previously and all enjoyed socializing, drinking Maude's Garden Tea and the camaraderie of sharing and discussing art.

View some of the scenes from the show:

It was so special to show off a portrait of Maude's Garden, painted by artist Mark Koplán (center) in *Maude's Garden* over the last few months. Here, Mark celebrates his work with Emily Billows, a Memory Hub community partner from the Seattle Public Library (left) and Genevieve Wanucha of the Memory and Brain Wellness Center who, as Maude's Garden lead, curated the art show. Photo: Thomas Grabowski.

The art show included works of glass garden art by community member Linda Cowan. To make her garden art, she finds

Kimberley Rettig, M.Arch., stands by her artwork, titled Sun Wind.

Members of the UW Alzheimer's research center's team visited the show and spent time at our art table in our

glass pieces at Goodwill and fuses them into nature-inspired creations. [Learn more.](#) Photo: Thomas Grabowski.

Dementia Friends Update - Eastern Washington

[Dementia Friends](#) is changing the way people think, act, and talk about dementia. It's energizing to see much-needed awareness continue to spread throughout the state.

Dementia Friends WA partners with organizations throughout the state to implement the Dementia Friends program in their region. Aging and Long Term Care of Eastern Washington, an agency that covers Ferry, Pend Oreille, Spokane, Stevens, and Whitman counties, has been seeing positive growth in the Dementia Friends program, as well as increased volunteer interest. Currently, this region has 300 Dementia Friends!

Cheney Public Library

North Spokane Library

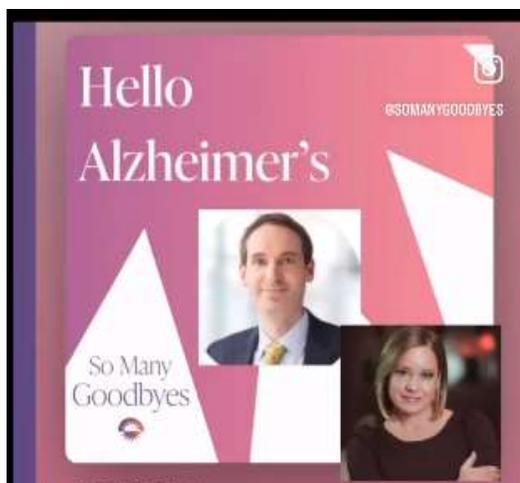

Argonne Library

Tara Hill Matthews and Jenni Jones, staff members at Aging Long Term Care of Eastern WA and Dementia Friends Regional Coordinators, are hard at work, providing sessions at local library locations in the area. "We are grateful for everyone who has seen the growing need for knowledge about dementia and has taken the step to become a Dementia Friend," says Tara Hill Matthews, Dementia Resource Catalyst, Aging Long Term Care of Eastern WA.

Maude's Garden

Registration for the FALL Garden Discovery Program
[Registration open](#) (Oct . - Dec.)

In today's September [Garden Discovery Program](#) (the last Summer session), the group explored the blooming garden, savored herbal tea, and shared thoughts about what they noticed and felt grateful for. We explored the theme of "always alive," which is the translation of "Sempervivum" (Hens and Chicks plants). After the mother plant blooms, it dies; yet little plants growing around its base continue growing, reminding us of the enduring legacies we can all create during our lives.

In the nature-inspired project, Dawn Robinson and registered horticultural therapist Peach Jack invited participants to make tabletop terrariums with succulents. We are excited to share that Dawn Robinson will be joining the upcoming Fall season of the Garden Discovery Program as the leader of the nature-based projects! Dawn is in training to become a registered horticultural therapist. Her time working with the Memory Hub garden community is helping her to reach her goal.

"This was a real education and this is something we can bring home and do together, take care of it together." - a participant in the Garden Discovery Program

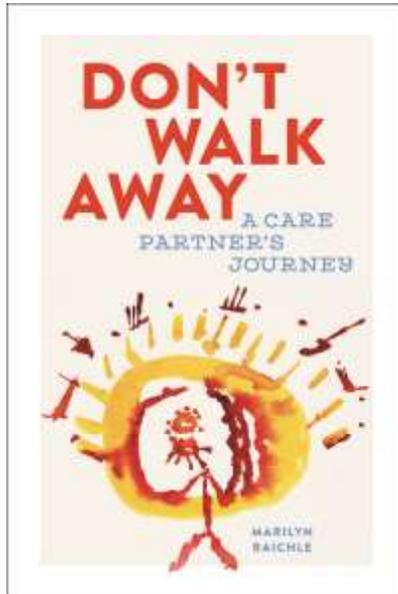

"At a time when our lives have become more mobility limited, it is amazing to be in the garden and see these plants that stay in one place and thrive." - a participant in the Garden Discovery Program

[Interested in the Fall season of the program?](#)

The Garden Discovery Program is a partnership between Seattle Parks and Recreation and UW Memory and Brain Wellness Center. The Garden Discovery

Program is a program for people living with memory loss and their caregivers and is made possible by support from Aegis Living Assisted Living and Memory Care communities.

Community Resources

Our community partner Marilyn Raichle has just published a book: *Don't Walk Away, A Care Partner's Journey*, which has an introduction by MBWC Director Dr. Thomas Grabowski, MD. The book is now available on Amazon.

30% of the net proceeds will be donated to the Memory Hub and the I'm Still Here Innovation Grant program.

Marilyn Raichle is the founder of the Art of Alzheimer's and Executive Director of Maude's Awards for Innovation in Alzheimer's Care.
